COUNCILLOR J. E. GILLIS TENDERS RESIGNATION

The regular bi-monthly meeting of the Blairstown town council was held on Monday night, and was attended by Mayor J. H. Farmer, Councillors W. Patterson, Evan Morgan, Arthur E. Ferguson, Robert Hayes and Mark Sartoris and Secretary Kelly.

The minutes of previous regular meeting were approved as read and a number of small accounts were passed for payment, as O.K'd. by various committees.

A communication was read from J. W. McDonald, K.C., mayor of the Town of Macleod, in connection with the Macleod hospital's claim upon the Town of Blairstown for balance of account re treatment and board of Mrs. E. Russell. The bill up to the present amounts to in the neighborhood of \$100. The town is perhaps morally, if not legally, responsible, since the original agreement with the Macleod hospital carried the signature of the then presiding mayor and secretary-treasurer, Mr. McLeod and Mr. W. R. Galt, coupled with the seal of the town. Council decided that they would give the matter definite consideration between now and next regular meeting and advised the secretary to notify Mr. McDonald to this effect.

About the most important matter of the evening was the attention drawn by Mr. Vissac, general manager of the West Canadian Collieries, Limited, to the effect a recent resolution would have upon his company. The resolution referred to was to the effect that firemen would not be paid for fire-fighting services performed outside the limits of the town. Most of the building property of the West Canadian Collieries was outside the present town limits, and included the tipple, washer, iron works, dwellings, etc., of great value, and, as shown by Mr. Vissac, that upon which the town was almost solely dependable. The action of the council was such as might seriously affect the company's interests in the event of fire and they, as well as the town at large, could ill afford such.

Reasons were expressed by various councillors for the action of the council in this regard, the main being that on at least one or two occasions when the fire department were called to points outside the town limits, difficulty was experienced in collecting expenses of firemen from the owners of property or the insurance companies.

Mr. Vissac gave assurance that, as far as his company was concerned, they were prepared to meet the cost of firemen's wages at any time they were called upon to fight fire upon the company's property, and the council decided to instruct the firemen to respond when called upon to fire upon the company's property outside the town limits.

[In the opinion of the average rate-payer, the council should place no obstacle whatever in the way of firemen responding to a call to fight fire, either within or without the town. Occasions have arisen where valuable assistance has been rendered by firemen from both Coleman and Bellevue when Blairstown was in need of assistance and our men have gladly volunteered to co-operate whenever possible in this respect, and in no case has either town undertaken to exact a fee from the other for such services rendered. As it stands at present, even the property of the West Canadian Collieries, outside the town limits, is not assured protection, for at the call of fire from the west end of the town the firemen might hesitate to find out the exact location of the fire before proceeding, and by so doing give sufficient time for the fire to get beyond control. Properties without the town limits are insured upon a basis governed by our system of protection and that insurance will

ORGANIZE TWO CHAPTERS OF MOOSEHEART LEGION

The organization of two chapters of the Women of Mooseheart Legion was successfully effected at Coleman Hall on the afternoon and night of Sunday, January the 9th. A. J. Ingram, deputy grand regent for Alberta, an organizer, was present for the occasion, together with Deputy Grand Regent-at-Large Diffendaffer, of Seattle. These were very ably assisted by the ladies of the Lethbridge chapter. About three hundred members and applicants were present for the occasion. Following initiation the officers of Blairstown Chapter 920 and Coleman Chapter 919 were duly installed as follows:

Coleman Chapter—
Past Regent—Mrs. Hannah Gate.
Senior Regent—Mrs. Isobel Hatfield.
Junior Regent—Mrs. Mary A. Ireland.
Chaplain—Mrs. C. Knowles.
Recorder—Mrs. Catherine Beirte.
Treasurer—Mrs. A. Hubert.
Guide—Mrs. Amelia Phillips.
Asst. Guide—Mrs. Agnes Gaudies.
Sentinel—Mrs. Josephine Bobbitt.
Argus—Mrs. Isabel Ramsay.
Organist—Mrs. Roy Thomas.

Blairstown Chapter—
Past Regent—Mrs. Mabel Neville.
Senior Regent—Mrs. Jane Chapman.
Junior Regent—Mrs. Josephine Drain.
Chaplain—Mrs. Ruth J. C. Howe.
Recorder—Mrs. Tessie Pannock.
Treasurer—Mrs. Rose Picard.
Guide—Mrs. Ida Nicholson.
Asst. Guide—Mrs. Jane Carnahan.
Sentinel—Mrs. Lillian Bouthillier.
Argus—Miss Flora Stilevand.
Organist—Miss Mildred Bond.

Following the installation of officers the meeting was addressed by Deputy Regent Diffendaffer, who outlined in a brief way the enormous work being accomplished for the children by the Mooseheart Legion.

Organizer Ingram deserves great credit for the success that has attended his efforts in this district. He is a busy man and left here on Tuesday for Drumheller, Wayne, Stettler, Hanna and other points where organization work is either in progress or where lodges have already been established. He will institute a chapter at Drumheller on his return from the north.

CHAPTER XXV.—Continued
But, just now, with Prince Michael's sudden surrender to her creating a new undertone, and with the coming of John to irritate him, she was restless beneath Kenlworth's intense appraisals. And she didn't want to be cross-ways with John. She knew she was concealing from Roddy the constant searching of her eyes along the visitors of the Terrace and into the Casino Square which fronts the crowded tables of the Café de Paris, for a familiar figure.

In the atrium, the red and gold bays of the Casino, Yvonne and Michael were awaiting their play.

"The rooms are crowded," Yvonne observed. "I've decided to hunt a place at the roulette tables."

Arrived at each roulette table were crowds from the deeper, half-afar corners of the company of curious visitors to the world's gayest shrine of sin, tourists, cocottes, gambling monsters for the evening, and old women hanging on holding chairs with the hope of selling them to after-dinner husbands. All of these last, the old women of the gambling rooms, knew each one of the party that crossed the wide polished floor of the splendidly decorated rooms and glanced about, for pieces. Croupiers, too, gave little signs to each other at the entrance of the sleek Yvonne and the lovely young American. Both had been the heroines of sensational plays that had become Casino legends. Yvonne dropped into a chair. Michael bought from an old bag for a fifty franc note. Kenlworth guided Joanna to another and won a cayuse from the ancient dame who surrendered it by the size of her tip. Joanna plunged immediately into her play, Kenlworth standing close behind her.

When Joanna gambled she lost herself entirely. The color came into her.

Do You Cough?

Photo by Kennedy

Guelph, Ont.—"It caught a severe cold and could not seem to get rid of it. It just clung to me and finally settled in my bronchial tubes causing me a lot of trouble. The doctor said I had to stay in bed at night during the day, causing sleeplessness. I finally decided I would try Dr. Pierce's Golden Medical Dry Syrup. By the time I took the first bottle I was entirely relieved of the bronchial trouble—my cough disappeared and I had no trouble with it again. I do not know what can take anything better for bronchial weakness or deep-seated coughs than the 'Golden' Syrup."—Miss Mary Deneen, 170 Ontario Street, Liquid or tablets at your neighborhood store.

gissette had won a matter of a million francs in an hour or two. And seemed to be unbroken. The official gave a hidden sign. Attendants in the quiet uniform of the Casino quietly rolled up a square box set upon wheels. Out of the box, they lifted cases of money which they put in the receptacles of the croupier's hand. The girl, in such a mood, was like a madman—Mademoiselle Joanna had broken the bank. When she moved the double maximum for an hour and half, winning streak, the clump of jingles provided for every emergency.

Prince Michael and Yvonne after a time of desultory play left their chairs and moved over to a grand with Brandon and Kenlworth behind the girl at the table. Joanna felt their presence and called over her shoulder to Michael:

"You've got lots of pockets. Please empty my lap of money. My bag is filled and I can't take care of it all. And you can play with me as Roddy's doing."

It is so clearly against the rules for a player to go beyond the maximum that the croupier, worried already by the obvious trick of Kenlworth's merely touching, the second 15,000 francs in the girl's stakes, glanced sideways at the chef de partie for his approval of this added evasion. Joanna caught the glance and treated the aged chef de partie with a warmth that captivated him. He bowed to the croupier and Prince Michael, having emptied the pile of notes and gold which Joanna had scraped into her lap into his various pockets and overflowing it into Kenlworth's, reached over her other shoulder to help her make her play 45,000 francs at a time.

Yvonne, standing now edged against Brandon, suddenly felt his hand on her arm. When she looked up at him he signalled, with a look, a presence in the room. She turned and glanced about among the marble pillars along the corridors. She saw a figure already in dinner clothes standing idly between the columns where visitors loiter to take in the always thrilling scene about the roulette tables. The boy, for he was hardly more than a boy although he had the air of one who had grown big in the midst of what seemed to be the most of what was then counted, appeared to be undetermined whether to pass on, and out onto the Terrace, or turn into the Salle du Bouleau and investigate the reason for the crowd that hovered, with tense and expectant air, in the middle of the room, where she had stood in every detail of the figure in dinner clothes, glanced at Brandon. He nodded at her quietly. She threaded her way out of the crush and crossed the chamber. He then proceeded to demonstrate.

The young man between the columns had decided, evidently, to pass on. But as he was turning into the corridor his eyes caught the woman who was approaching him. He moved to meet her, a glad smile in his face. Her two hands reached out to him; impulsively, awkwardly he took them both, and would have dropped them but they held onto his.

"We knew you had come," Yvonne said, "and so I am to be the first to tell you what wonderful things you have been doing and how happy, I— we are! You are quite the same John Winsor we left in New York!"

The "we" was emphasized. John admitted that it confused him. And the boy still held onto his hands.

"I did hope you would," "that you wouldn't say I looked just the same. Every acquaintance I meet says that to me. I feel as if I was derelict in something; as if I ought to look different than I do."

"Now, that's a very appropriate speech," Yvonne assured him. "It strikes home, because, frankly, I've been wondering since I read of your arrival; just how you'd look. Being famous does change some people, you know."

He fumbled a little with his released hands. Yvonne sensed the question at his lips. "She is over there," she said, "playing. That crowd is hers." She came in an hour ago quite heralded but the Red and Black always sweeps her out of herself. She's playing the maximum, trable, and whinup. We mustn't disturb her now."

They walked across the saloon and up to the edge of the crowd and pressed against the girl on the gold chair. She was playing, she was at least three times the maximum, and whose plays still troubled the chef de partie as she continued to win. Brandon came out of the pack and greeted John affably.

the rules and stakes, on one turn of the wheel; double the maximum. Brandon and Kenlworth exchanged glances. A chef de partie, the official who supervises each table for the Casino administration quietly took a stand beside the croupier. Mademoiselle had won a matter of a million francs in an hour or two. And seemed to be unbroken. The official gave a hidden sign. Attendants in the quiet uniform of the Casino quietly rolled up a square box set upon wheels. Wife of British Air Minister Delighted

With Journey to India

Lady Howe, wife of the air minister, thoroughly enjoyed her recent trip to India with her husband. Speaking to the Daily Mail correspondent at Kanchan, where they were staying in Indian fashion, she said:

"I never experienced such a comfortable journey either by train, sea or air, and I thoroughly enjoyed every moment. When I wasn't watching the scenery beneath I spent most of my time reading or in writing letters."

"My single suitcase proved ample baggage. Indeed, I could have done with less. One can powder one's nose in an aeroplane as easily as in a dressing room."

Distinguished Faces By Noise

Television System Transmits Pictures

by Sounds Says Inventor

"It is possible to transmit your face from other people's faces by the noise it makes," says J. L. Baird, the television inventor in a lecture at London. He then proceeded to demonstrate.

He explained he had discovered that transmission of pictures by the television system were received as sounds by telephone or radiophone, each object having its corresponding vibration. In his demonstration he used pictures of various persons and then a match box, a pair of scissors, a hat and a cabbage. One face made a sound like a snap. Another like a pneumatic riveter, while the hat purred softly. The cabbage's image emitted a noise like a man gargling. These sounds, Baird said, formed permanent records from which the original image could be reproduced.

Alberta's Population

Alberta's population is 67,551, according to a preliminary statement of the census taken as at June 1st, 1926.

These figures show an increase of 19,130 over the 1921 census, of 111,142 over that of 1916, and of 42,237 over 1906. The province's population is divided into 374,614 rural and 223,970 urban. The city of Edmonton shows an increase of 6,842 for the five years and Calgary of 2,208.

Vie For Supremacy of Road

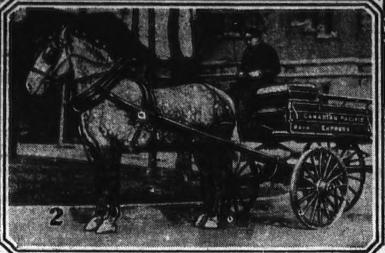

1. Modern tractor-trailer in Canadian Pacific Express service.

2. The old horse team of the Canadian Pacific Express stable.

Is the horse doomed to extinction so far as the road concerns? A few years ago it would appear incredible that the horse team should supplant the faithful servants as much as it has. Tractors are endeavoring to edge him off the field, too, but the game is not over.

We have been somewhat moderated—those of us who buy gasoline—that we are gradually coming to regard the old grey mare with more or less admiration. We think, however, in terms of transport, we are becoming more inclined to picture them staggering before a junk wagon or haltingly mobilizing a calico car, rather than the team whom so much has been written, whose devotion and faithfulness has inspired poets and artists. J. E. Coulter, assistant to the vice-president of the Canadian Pacific Express Company, gives us quite a shock account. He drives a car which is paid for, uses considerable of the company's gasoline and has not even the pleasure of six new trucks—beautiful things, of which he is very proud. "The horse," he said, "the horse will never be altogether replaced on the road, and with the exception of the day when he will replace some of the trucks." And then he waxed eloquent. We could see that he had been born fifty years earlier, and was a very young man in the Canadian Pacific. He could have had some of the "fastest turnout" possible. Coulter has over two hundred motor vehicles to keep close record

of, but he says that his company will only replace a horse where it is proven that an actual economy will be effected. He further adds that the two horse wagons have not quite enough work to keep them both busy a motor vehicle will perhaps be more economical, but on the whole, he said, will not economically replace one horse in our service, and particularly in congested areas where "any stop must be made". This from a man who lives by efficient transportation.

Mr. Coulter believes that part of maintenance of horses, wagons, and other vehicles should be charged to advertising. That is why one never sees the name of a very young man in the Canadian Pacific. He could have had some of the "fastest turnout" possible. Coulter has over two hundred motor vehicles to keep close record

MAGIC, VAUDEVILLE AND PICTURES

Bert Johnston's magic and fun show, under the management of Joe Marks, one of the famous Marks Bros. who have toured Canada and the United States for years, will fill three nights engagement at the Orpheum Theatre, Blairmore, on Thursday, Friday and Saturday, January 20, 21 and 22.

This company played eight consecutive weeks in Winnipeg, two in Regina and nine days in Calgary, playing all the important towns between Toronto and Calgary. Arrangements have been made with the management of the Orpheum Theatre to show a feature picture each performance during the engagement.

Mr. Johnston's part of the program consists of magic, music, mirth, mystery and art. The company number six people and magic and vaudeville is put on nightly.

As a magician, Bert Johnston stands in a class by himself and is the most entertaining of modern magicians. The illusions, etc., by the company, together with the big feature picture, will send you home wondering how it can be done for such a cheap price. But the way it can be done is by packing the show house to the doors each night, and that is just what we expect to do during our engagement.

Other noted members of the company are: Al J. Smith, master wizard of the violin; Salvail, the card king, and Madame Muriel, in the most amazing act ever presented. Madame Muriel is the possessor of one of the rarest gifts known to humanity, that of being able to know, foretell and solve mysteries, and in other ways go beyond the limit of the average brain. Her act is not mind reading or similar to any of the many (fake) acts so often run on the stage. She does not know herself. She has been under investigation by famous scientists who proclaim her as genuine, and her answers are 95 per cent correct.

A CURIOUS COINCIDENCE

On December 5th, 1864, a boat sank while crossing the Menai Straits. Of the eighty-one passengers on board, only one escaped. His name was Hugh Williams. One hundred and twenty-one years later, another boat went down on the very same day and in the very same place. All her passengers, sixty in number, were drowned with the exception of one. That one's name was Hugo Williams. Yet again, on August the 5th, 1926, a boat was wrecked on the same spot. Of her twenty-five passengers only one survived, and he was a Hugh Williams. This, perhaps, is the most remarkable name-coincidence on record.

HON. CHARLES STEWART
IS HONORED BY POPE

CALGARY, Jan. 13.—A special to the Herald from Ottawa says: Hon. Charles Stewart, minister of the interior, has received a diploma and medal of honor from the directing committee of the vatican missionary exposition at Rome and the gratuity of His Holiness Pope Pius XI, as a token of paternal gratitude for devotion shown and in measure so appropriate.

Mr. Stewart, who is an Anglican in religion, was somewhat surprised at the honor bestowed upon him and said the only reason he could account for it was because of the happy relationships which had existed between his department and the Oblate missionaries in connection with their work in the Indian missions.

PYTHIANS INSTALL OFFICERS

The officers of Greenhill Temple No. 10, Pythian Sisters, and Livingstone Lodge No. 22, Knights of Pythias, were installed by joint ceremony in the Castle Hall on Friday night last.

Mrs. W. Lord had the honor of installing officers of Greenhill Temple, assisted by Mrs. S. Ennis and Mrs. E. Elliott. The new officers are as follows:

Past Chief—Mrs. R. Gray.
M.E.C.—Mrs. R. Gray.
Ex. Senior—Miss E. Kidd.
Ex. Junior—Mrs. D. Fraser.
Manager—Miss Jean Shearer.
M.R.C.—Mrs. H. A. Moore.
M.F.—Mrs. W. Oakes.
Protector—Miss Laura Lord.
Guard—Miss Gertrude Oliver.

The officers of Livingstone Lodge were installed by District Grand Chancellor E. Elliott as follows:
Junior Past Chancellor—W. Lord.
Chancellor Commander—T. J. Williams.
Vice-Chancellor—Joseph Wolstenholme.
Prelate—David Oliver.
Master of Work—James Stewart.
Keeper of Records and Seal—Bert Sennier.

Master of Finance—John Anderson.
Master of Exchequer—E. Elliott.
Master-at-Arms—Thomas Kemp.
Inner Guard—F. Nemrava.
Outer Guard—J. Tupkal.

Following the installation ceremonies, tables were spread and ninety persons sat down to a sumptuous turkey-dinner. Dancing was then engaged in and kept up till 2 a.m., Mrs. Altermatt's orchestra providing music.

Preliminary figures on Alberta's coal production for the past year show the total to be 6,117,000 tons, quite an increase over the previous year.

BIG "TWO-IN-ONE" SHOW AT THE ORPHEUM THEATRE

Tonight, Friday and Saturday, with a special matinee Saturday at 2:30, the patrons of the Orpheum Theatre will be treated to what is called "The Two-in-One" Show—feature pictures and Bert Johnston's company of fun makers.

The regular high-class pictures will be shown as usual and the program chosen for these days is an exceptional one, featuring Rex Beach's sensational Cosmopolitan Magazine story picturization of "Padlocked," a dramatic story of the restless age, with the following cast: Lois Moran, Noah Beery, Louise Dresser, Ellen Jerome Eddy, Douglas Fairbanks, junior, and others.

Mr. Johnston's part of the program consists of magic, mirth, mystery and art, assisted by other members of the company. The company numbers seven, with five on the stage, including Al. J. Smith, wizard master of the violin; Salvail, the card king; Bert Johnston, master magician and tru-loquent; Salambo, his assistant, and Muriel, the woman who knows and will answer all questions.

At the special matinee on Saturday, Punch and Judy, the royal marionettes, and Johnston's wooden-headed family, four in number, will be the offering.

Special hard times prices will prevail for this engagement. Come early and avoid the rush.

BERT JOHNSTON and JERRY with their wooden-headed family and Punch and Judy will appear at the Big Matinee at the Orpheum Theatre during the Bert Johnston Co. engagement on Thursday, Friday and Saturday of next week. Matinee on Saturday at 2:30.

Local and General Items

The first municipal aerodrome in Canada has been opened at Edmonton, and special experiments in winter flying are now being carried on there.

A French Canadian from Montreal who has a wife and three children in Canada, recently attempted to slope from Newfoundland with another man's wife who is the mother of nine children.

Flight Lieutenant Collis and Flying Officer Dickens, of the High River aerodrome, flew from High River to Edmonton on January the 8th, a distance of 225 miles, in two hours and a quarter.

The ideal A Nova Scotia paper states that the "Labor" government of Alberta made two million dollars out of liquor last year. At that rate, how much did the Farmer government make?

W. S. Gray, the new acting deputy attorney-general of Alberta, was a former resident of Macleod in the partnership of Macleod & Gray, barristers, etc. The late Colin Macleod was his partner.

The United States big sesquicentennial exhibition, in celebration of that nation's 150th birthday, ended recently with a deficit of \$5,000,000. Lack of proper advertising is given as the cause of this deficit.

Camels from northern Russia are to be tried out in lieu of horses by a number of German Lutheran farmers of the Rosthern district of Saskatchewan, who plan to import about one hundred of the animals.

Hughie Munson admits that if some members of the Bellevue team wish to play the game right they should be satisfied with playing one stick, and not try to carry his as well. Hughie and MacKay are getting fed up with scores and are contemplating storing up a few extras for next season's count.

The death of A. E. Wilson, former resident of Pincher Creek district, occurred at Creston, B.C., on January the 12th. Mr. Wilson was a member of the I.O.O.F. and very well and favorably known. A family of nine children survive, Mrs. Wilson having died some years ago. The remains were taken to Pincher Creek for burial.

One of our exchanges remarks that street sales last week broke all records for that paper, reaching near the 100 mark. The Enterprise street sales have not been less than 200 in the last nine years, but rather than increasing street sales, our local sub-list is climbing up so that our town circulation today is well over the 350 mark.

As though Japan has not had enough trouble with her earthquakes, Lewis Noble, of the United States geological survey, says that the Japanese islands will eventually disappear below the waters of the Pacific. Japanese scientists reveal the fact that an island in Kyus Bay vanished 300 years ago, drowning five thousand.

Blairmore Tuxis Juniors took the small end of a four-score team at the local arena on Friday night against the Coleman seniors. At no time in the game did Coleman have the edge on the local kids but were lucky in securing the odd goal, putting up a five-man-defence from on to the finish through which the local boys could not penetrate. The game was about the fastest of the season and was witnessed by about four hundred fans.

W. Venini, of Ottawa, registered at the Cosmopolitan hotel the early part of the week. It is said that Mr. Venini is connected with the federal department of mines and is here securing data from Jack McDonald's census lists for use in connection with the new immigration and colonization scheme. Mr. Venini was very much impressed with the scenery of this district, and doubly so after inhaling several quarts of Alberta's adulterated water.

Immigration to Canada for the first nine months of the calendar year 1927 shows an increase of 6% per cent over the same period a year ago according to a statement issued recently by the Department of Immigration and Colonization.

Moncton, New Brunswick.—Frozen blueberries are now being shipped in quantity to Cleveland and other centres in the United States. So far eight carloads have left Moncton ice so that the fruit will remain frozen. Two more carloads are about to go forward.

Victoria, British Columbia.—Famous Players Lasky are to establish a plant in British Columbia for film production, it was announced in connection with the \$15,000,000 concern known as the Famous Players' Canadian Corporation, Limited, of Toronto.

Traffic in grain from Winnipeg along the Canadian Pacific Railway lines this year has been heavier than last year by over 12,000,000 bushels. With 110,298,085 bushels marketed and 63,010 cars loaded the increases over last year's ten month period were 12,168,437 bushels and 3,538 cars.

Antwerp, Belgium.—When the Canadian Pacific steamer Melita arrived recently she was given an official welcome and a great popular demonstration as the ten thousand vessels to enter the port of Antwerp this year. An elaborate programme was arranged in her honor.

Saint John.—Moose are reported nearly three times as plentiful this year than last in the Tobique district, according to Burton L. Moore, well-known guide. The rapid increase of these big game animals points to migrations into the territory. Guides and sportsmen have not yet decided the source of the movement.

A great service to the travellers on the C.P.R. lines will be put into effect with the first line of the other, the C.P.R. will run the "T. line" "Melita" when for the sailing of C. P. Liners from Saint John to Europe between December 1st and April 12th, through tourist sleeping cars will be operated on C.P.R. trains from Winnipeg direct to the ship's side at the New Brunswick port.

Desirous of popularizing old French-Canadian folk songs among the English-speaking people of this country, the National Council of Education, on the initiative of Major F. J. Ney, made recent arrangements with Charles Marchand, well-known singer, for a comprehensive tour of the Canadian west. The folk songs which Mr. Marchand will render in English have been specially translated by J. Murray Gibbon, dean of publicity of the Canadian Pacific Railway.

September is becoming a popular month for marriages, judging by the number of honeymoon couples leaving from Windsor Street Station, Montreal, recently. On Labor Day less than 50 couples started the Canadian Pacific trains at this depot. The record established for one day, however, was some years ago in June when 70 couples left Windsor Station one morning.

It will be remembered that a year or so ago, a local party shot and killed a pet "manny" belonging to Tony Rota, by mistake for a Rocky Mountain wild goat. Tony was given another in return, which was purchased at Coleman. Since that time Tony sold the goat to a man living in the Pelletier addition and a few days ago the animal became mother of four kids.

With the provincial government ordering school books from the States and employing an American as chief commissioner of mines, the next thing we may expect is an Alberta scandal similar to the one unearthed in New Brunswick where American capitalists are charged with giving a handout of \$100,000 to a one-time New Brunswick premier. Our provincial government should ca' canny.

THURSDAY, JANUARY 26, 1928.

Mrs. Alice Jenkins, 22, of Pippin Creek, has obtained second highest marks in the province of British Columbia in her R.N. examinations. Mrs. Jenkins is an honor pupil of the Kootenay Lakes hospital at Nelson.

A United States paper remarks: "The thing we need is more population. Farmers need it, especially, and our foolish immigration laws keep the needed population out. Fifty million more people of the right kind from Europe would solve the problem of over-production that now worries the farmers."

Scene—Sunday morning in the drug store.

"Can you give me change for a dime, please?"

Drugist—"Certainly, and I hope you enjoy the sermon."

Bald-headed man—"You say this hair restorer is very good, do you?"

Stevies—"Yes, sir; I know a man who took the cork out of one of these bottles with his teeth and had a moustache the next day."

Followed Advice

The grocer had just put a new boy to work, and among the other instructions was this:

"If you don't happen to have what a customer wants, suggest something else as nearly like it as possible."

Soon a woman came into the store and asked the boy, "Have you any fresh green stuff today?"

"No, ma'am," answered the boy, "but we have some nice blueing."

"Buy a car," said the doctor, "and get out more. You ought to take off pounds."

Speaking of the results obtained by this prescription, Sandy says: "I got a car and got out more. I got out six times between Coleman and McLaren's Mill and took off flesh in four different places. Once I got out through the windshield and that seemed to take off more flesh."

Not the Curate's Fault

A clergyman, called away suddenly and unable to officiate at the services in his church, entrusted his new curate with the duty. On his return home he asked his wife what she thought of the curate's sermon.

"The poorest I ever heard," she declared, "nothing it at all."

Later in the day the clergyman, meeting the curate, asked him how he had got on.

"Splendidly, sir," replied the curate.

"I didn't have time to prepare anything myself, so I preached one of your sermons."

A Lesson From Montreal

The recent tragic occurrence in a moving picture theatre in Montreal where, following a panic cry of "fire," a stampede ensued resulting in the blocking of all aisles and exits and the consequent death through suffocation of seventy-seven children, should lead to a most careful investigation by all Provincial, municipal and other authorities, both into the present exact condition of all public assembly, and an examination of all ordinances, by-laws and regulations governing the management of all such places.

Apparently not one of the children who lost their lives in the Montreal disaster was burned to death, but in the ensuing panic following the cry of "fire" the exits proved inadequate. It is even possible that the exits themselves were sufficiently large and numerous, but with people standing in the aisles they became jammed.

No doubt in most municipalities throughout this western country proper and stringent by-laws and regulations have been passed prohibiting the placing of extra seats in the aisles of theatres, churches, schools and halls in order to accommodate audiences in excess of the seating capacity of such buildings. It is undoubtedly against the law in most municipalities to allow people to stand in the aisles leading to exits, or in the exits themselves. If no such regulations have been made, it is criminal negligence on the part of the responsible authorities.

The important thing is,—are these by-laws or regulations faithfully observed? Are municipal officials alert in seeing that they are complied with? Is prompt action taken against the management of any building who neglects to observe this very fundamental need to insure the safety of the public?

As a matter of actual fact, it is not true that these regulations in public safety are only too frequently honored in the breach rather than in observance? Readers of this article can undoubtedly recall numerous occasions when extra seats have been placed in aisles and people have been allowed to block aisles and exits at highly attended public gatherings.

It is the duty of the responsible authorities for the enforcement of these regulations for safeguarding the public are negligent, it would appear to be the duty of individual members of such audiences to make vigorous protest to the management in their own interest and in the interest of their fellow-citizens.

Proper construction of buildings can be provided for and enforced; the wisest regulations can be enacted; but when disaster suddenly threatens it is well nigh impossible to prevent a certain degree of panic and if only two or three people lose their heads at such time the effect is contagious. It is absolutely essential, therefore, that the cool-headed in the audience have a fair fighting chance to get rapid control of the situation. This it is possible for them to do, because of an ignoring of necessary precautions, conditions, exist which make for panic.

Montreal no doubt there will not only a searching investigation, but radical changes in regulations and a tightening up in their enforcement. This, of course, is necessary and wise, but it is only another example of locking the stable door after the horse has been stolen. In all our communities it will be wise if they now take the lesson of the Montreal tragedy to heart, and provide to the full extent that it is humanly possible to do against any like happening in their midst.

Scientific Distribution

Great Britain Would Distribute

Population Within the Empire

British does not regard its overseas settlement scheme as a means of getting rid of its unemployed population, but is rather endeavouring to develop a scheme of distribution of surplus of all classes within the Empire. This was the statement made recently before the Montreal Women's Club by Miss Margaret Bonfield, M.P., in her official capacity as a member of the British overseas settlement committee and of the Society for the Overseas Settlement of British women.

Safety Film Invented

British Firm Has Non-Inflammable Film That Eliminates Danger of Fire

A clanna film which, it is alleged, is non-inflammable and which eliminates the danger of fire in projection rooms of moving picture theatres was tested in a well-known London theatre recently. The tests were apparently successful as the film refused to burn or emit poisonous fumes. The film is a British invention, the result of 14 years of experimenting. A factory is to be erected near London where it is hoped to produce the film in marketable quantities within six months.

Right idea About Charity
A group of Philadelphia men were discussing the merits of Jules Mastbaum, the theatrical man. One of them was a milkman who declared that "Jules Mastbaum was the finest man that ever lived. Would you believe it? His milk bill was from \$500 to \$1,200 every month, for about five years."

This called for an explanation and the milkman gave it. He said that when he began delivering milk to Mastbaum's house in his route, the great showman told him to go around and find out what families were so poor that their milk budget was a problem.

"Just look around," Mastbaum told the milkman. "You'll know which are the deserving ones and which aren't. When you have found those, just leave them as much milk as they need: The bill? Send that to me every month."

So, for four or five years, dozens of families in the poorer districts of Philadelphia have found milk on their doorsteps every morning but never a bill for it.

Pat found himself hard-up and without a flake of tobacco in his pouch. Suddenly he spied a very evidently Scotchman coming along. Pat hadn't the cheek to ask a perfect stranger for a pipeful of "baccy, but a brilliant thought struck him. He approached Sandy, and asked: "Might I trouble ye for the loan of a match?"

"Ay," answered the Scotchman, and gave him one—just one.

"Faith now!" cried the artful Irishman, "if I haven't come out with any 'baccy, and the shops are all shut."

"Ah," said the Scotchman, reaching out his hand. "In that case ye'll no' be needin' that match."
